EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Keum J. Park (Reg. No. 42,059) on 7/20/2005.

The application has been amended as follows:

Before the FIELD OF THE INVENTION section, please rewrite the following section heading and new paragraph [001] as:

STATEMENT OF RELATED APPLICATION

This is a continuation of co-pending U.S. Patent Application 10/176,977 and entitled "Universal, Programmable Guide Catheter," now issued as U.S. Patent 6,679,836.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 8 and 9, previously shown as objected to, have been written in independent form and include all of the limitations of the base claim and any intervening claims.

Additionally, new claim 40 is the previous claim 7 written in independent form and include all of the limitations of the base claim and any intervening claims. The subject matter of claim 7 was previously mistakenly shown as rejected via statutory double patenting. Claim 7 should have been objected to. And finally, the prior art and any combination thereof does not disclose, imply, suggest and/or teach all of the limitations of new claim 40, particularly the placement between the substrate and barrier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Claims 8, 9 and 40-62 are allowed.
